Software Engineering | AI Applications | Data Systems

EDUCATION

University of California San Diego

La Jolla, CA

B.S. in Mathematics-Computer Science; GPA: 3.6/4.0

Expected June 2029

- **Completed:** Calculus I-III, differential equations, vector calculus, linear algebra; CSE 11 and CSE 12.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Java, C++, HTML/CSS

Development: React, Node.js, NestJS, Express, Flask, REST APIs, Claude API

Data & Deployment: PostgreSQL, Redis, Git, GitHub Actions, Docker, Caddy, Nginx, PM2

TECHNICAL EXPERIENCE

Creator & Full-Stack Engineer

July 2026 – Present

DigiCure | Outpatient-management platform

Live production

- Built and operate DigiCure, a hospital platform managing **500+ outpatient visits per week**, covering intake, doctor queues, billing, reconciliation, and prescription PDFs.
- Implemented row-level security and transaction-scoped tenant access to isolate hospital records; added role-specific views and audited access to clinical data.
- Developed React and NestJS interfaces with real-time queue updates; wrote automated clinic-workflow tests and added Docker deployment, GitHub Actions, and backup/restore tooling.

Creator & Full-Stack Engineer

May 2026 – Present

DigiPagar | Attendance and payroll platform

Pilot testing

- Developed a React, Express, and PostgreSQL application for staff records, shifts, attendance corrections, salary advances, payroll exports, and employee payslip access.
- Implemented server-side QR/face matching and tenant-scoped access; validated multi-template attendance at **12.11 ms p95** on a **local 50-person test roster**.

Founder – Product & Technology

May 2024 – Aug. 2026

WeLearn

Mumbai, India

- Built a three-sided study-space platform for student bookings, library operations, and administration; grew the operating pilot to **75+ library partners and 500+ students**.
- Owned product architecture, full-stack development, and pilot operations; translated student and library-partner feedback into product priorities.

Software Developer & Growth Lead

Jan. 2022 – June 2025

Residential Leasing Business

Akola, India

- Built and deployed a full-stack CRM **used daily** to centralize property inventory, leads, tenant inquiries, and follow-up activity.

SELECTED PROJECTS

CultureDesk | *Node.js, Express, Claude API, REST APIs*

2025

- Built the backend and live market-feed integration for a hackathon prototype combining event-market data with AI analysis of sponsorship risk; implemented HMAC-SHA256 authentication.

Face Recognition Attendance | *Python, OpenCV*

2024

- Developed a real-time face-detection and recognition pipeline with a teacher-facing attendance interface.
